Space Meetings Veneto

Space Meetings Veneto is the new global business event that brings together professionals from across various industries to discuss the latest developments in the world of satellite applications, innovative technologies, supply chain and investment.

THIS FIRST EDITION WILL COVER 4 TOPICS

- 1 Investing in space and aeronautics
- 2 Space supply chain in a new space economy
- 3 Space applications for agriculture, wine and environment monitoring
- 4 Innovative aerospace technologies for viticulture

4 GOOD REASONS TO ATTEND

1. International participation

BENEFIT from the presence of the largest national and European contractors in the space sector

2. B2B Meetings

DEVELOP your network and connect with key players: space agencies, large companies, SMEs, Start-Ups through a series of individually tailored and pre-arranged B2B meetings

3. Technology

GET access to the latest technological innovations and breakthrough approaches responding to current and future challenges and opportunities in aerospace

4. Conferences

PARTICIPATE in high profile keynotes and panel discussions with industry stakeholders and experts from research centers and academia

PROGRAM

May 15, 2023
Investment Forum

May 16-17, 2023
Space Suppliers Summit

May 17, 2023
Space Wine & Agritech Expo

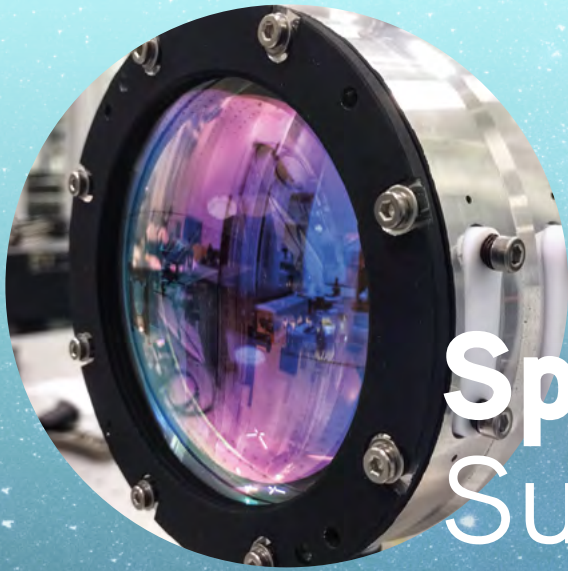

Investment Forum for Space & Aeronautics

May 15, 2023

Discover the market and learn about investment opportunities fostering the development of the aeronautics and space sectors.

KEY TOPICS

- Procurement trends and developments in the aerospace market
- Democratization of the space sector
- Opportunities for new market entrants
- Emerging market opportunities
- Green economy
- Cross-industry investment
- Business models and commercial partnerships
- Innovative purchasing platforms and technologies

Space Suppliers Summit

May 16-17, 2023

The Space Suppliers Summit is a two-day business convention dedicated to the space supply chain and satellite industry that features a high-level conference, a showcase, technical workshops, and pre-arranged one-to-one meetings.

KEY TOPICS

- Advanced manufacturing
- Data-driven manufacturing & advanced analytics
- Supply chain and procurement strategies
- Space 3D Printing
- 4.0 industries and green manufacturing
- Launch systems

Space Wine & Agritech Expo

May 17, 2023

This is a one-day event featuring a conference program and one-to-one meetings for professionals involved in space applications, innovative technologies, and data for the wine industry, and the climate monitoring sector.

KEY TOPICS

Space applications for vineyard and agricultural management

- Precision viticulture
- Remote monitoring techniques (GPS, remote sensing, satellite, UAV..)
- Remote-sensing data & operational water management
- Data for cultivating vines
- Control and regulation

Advancing vineyard management technology

- Big Data and AI
- Smart Warehouses
- Variable Rate Technology (VRT)
- Automation and robotics
- Drones and UAVs
- IoT and sensors
- Distributed ledger technology

Space data for climate change

- Satellite weather data
- Mountains monitoring
- Satellite data for lagoons
- LEO constellations
- Remote sensing technology
- Micro-data centers for new satellite design
- Space applications

WHO SHOULD ATTEND ?

- Hedge funds
- Venture capital
- R&D centers
- Space agencies
- International organizations
- Promotion agencies
- Academia
- Industry OEMs
- Tier 1 and Tier 2 suppliers
- Contractors
- Satellite downstream services providers
- Technology solution providers
- Engineering
- Procurement
- Startups
- Data analysts
- Software providers
- Vineyard managers
- Wine producers
- Trade retailers

WHY VENICE?

Veneto is one of the leading regional economies in Italy that houses a highly specialized and competitive pool of manufacturing companies.

Veneto in numbers:

19% of total Italy wine production*

9,4% of the Italian GDP in 2017*

* Source: ERRIN.European Regions Research and Innovation Network
